

# BETTER BIM™ WITH UNIFI

BETTER MODELS. BETTER DELIVERY. BETTER EFFICIENCY.

## A BETTER LIBRARY IS A CLICK AWAY

### Transfer Data

Simply contact your UNIFI team member, answer a few quick questions, transfer your data and relax.

### Quality Assessment

Our QA team analyzes the data review, then issues a statement of health and necessary action to obtain and maintain top quality data.

### Data Review

UNIFI's expert team of data developers dive in to create an extensive analysis of your content library.

### Library Recommendations

We'll schedule a library review to discuss our findings and recommendations for improving your data health.

## Comprehensive Overview of Your Data Includes:

*Files and Naming Conventions | Categories | Nested Components | Level of Nesting | File Size | Parameter Naming  
Shared Parameters from a Desired Shared Parameters List | Parameter Formula Length | Number of Imported CAD
